

*Senior Officer*

Mr. Cunningham: Your action

Subject: CIA Rep at the Army War College.

Colonel White suggests that the Agency send a representative on a trial basis for one year. Take another look and then make the final decision.

He has told General Eckhardt that you will "get in touch" with him to work out details.

Colonel White has also mentioned to Mr. Bannerman that Mr. Helms will want to "pass on" the person (or nominees?) for the assignment.

If you plan to call the General it is necessary to go thru the switchboard at AWC. 717-245-3131. (Autovon is 242-3131)  
Person-to Person will do it.

General E's letter is attached for your reference.

(to the DDs)

Just an added comment: Colonel White sent your memo/recommending representatives at all Senior Officer Schools to do what the General has outlined for CIA's man at AWC. Would this be the time to enter the full proposal and give it another try? (The way this one is happening is one of the things we mentioned in that memo: the colleges would ask us; hopefully, we wouldn't have to go to them.) But there are recommendations as to how the rep would be handled administratively -- under you, but bring his slot with him, etc....

'Presumed your permission to make a copy of the attached for Jane H's file.
